

Editorial

Dear Students, Parents, Teachers, and Staff, as we stride into the heart of the academic year, it is paramount that we pause to reflect on one of the most vital aspects of our school community: inclusivity. At our institution, we pride ourselves on nurturing an environment where every individual feels valued, respected, and celebrated for their uniqueness.

Diversity is not just a buzzword; it's the cornerstone of our identity. Our school is a vibrant tapestry woven from different cultures, backgrounds, and perspectives. It is this rich tapestry that not only enriches our educational experience but also prepares us for the complexities of the world beyond these walls.

In embracing diversity, we not only acknowledge our differences but also actively seek to understand and appreciate them. It is through this understanding that we cultivate empathy, compassion, and unity. Whether it's through cultural exchange programs, inclusive curriculum, or community events, we are committed to creating opportunities for meaningful dialogue and connection.

However, fostering a culture of inclusivity is not a one-time endeavor; it requires continuous effort and dedication from each and every one of us. It means challenging biases, confronting prejudices, and advocating for equity. It means being proactive in creating safe spaces where everyone feels empowered to be their authentic selves.

As we navigate the challenges and triumphs of the school year ahead, let us reaffirm our commitment to inclusivity. Let us celebrate the unique contributions of every member of our community, knowing that it is our differences that make us stronger together.

Together, let us continue to build a school where diversity is not just tolerated but embraced, where inclusion is not just a goal but a reality.

Warm regards,

Reading List

YOUNG READERS

1. The Boy who wanted to Fly-J.R.D. Tata
2. 108 stories from the Vedas, the Puranas and the Upanishads- Maple Press
3. Brave Women of India-Anant Pai

TEEMING TEENAGERS

1. She Can You Can by Garima Kushwaha
2. They Both Die at the End- Adam Silvera
3. Peter and the Star Catchers -Dave Berry

The sun's descent marks not just the end of another day, but a symbolic passage—a reminder that life, like the sun, moves in cycles, each ending giving birth to a new beginning.”

— Ryan Gelpke, *Peruvian Days*

Dear readers

Congratulations!

Our students have joyfully and successfully completed the journey of an academic year. The yearlong toil has borne fruit. Their growth and development has reached a notch higher.

This quarter has been very fruitful. The students have worked really hard to come out in flying colours. Kudos to them! The overall class result has gone higher, with more contribution to above 80s club. Even on the Sports front, our students have achieved amazing feat. Our contingent of 25 sportspersons performed superbly in DAV Sports Tournaments

From the Principal

2023-24, getting one Gold and two Bronze medals at National Level. Almost all the participants bagged one or more medals at Cluster and Zonal levels. This session, many of our students participated in Interschool Competitions held at Kota and proved their mettle.

We are very fortunate to have such lovely students who are ever eager to learn and grow in all spheres. For the same, we are grateful to CFCL and our dear parents, who have shown unfaltering faith in us.

With this, I hand over this last edition of Session 2023-24 for your reading and feedback. Looking forward to welcoming another enriching session!

Smita Ghosh

Stay Safe

Online

Beware of Evil Twin Wi-Fi Attacks!

To get online, we use something called mobile data or Wi-Fi. Wi-Fi is super cool, and if we can get it for free, that's awesome! But we need to be careful because sometimes free Wi-Fi can create problems if we're not careful. Let's learn more about it.

Hello kids! Do you like using Wi-Fi to play games, watch videos, or do your homework? Wi-Fi is super cool and helpful, but there's something you need to know to stay safe online. It's called an "evil twin" attack, and it's important to learn about it to protect yourself and your devices.

So, what's an evil twin attack? Well, imagine you're at a café or a library, and you want to connect to their Wi-Fi to go online. You see a Wi-Fi network with a name that looks familiar, like "Free Café Wi-Fi" or "Library Guest Network." But here's the tricky part: it's not the real Wi-Fi from the café or library. It's a fake one set up by a bad person trying to trick you!

When you connect to this fake Wi-Fi, the bad person can see everything you do online. They can even steal your passwords, your messages, and other personal stuff. It's like someone sneaking into your secret clubhouse and peeking at all your secrets!

So, it's important not to let your phone connect to any Wi-Fi that you're not sure about. And if your phone usually connects by itself, you should turn off that feature. That way, your phone will ask you first before it connects, and you

can say yes or no. If you're in a public place, it's especially important to be careful.

But don't worry, there are ways to protect yourself from evil twin attacks:

Double-Check the Wi-Fi Name: Before connecting to any Wi-Fi network, make sure it's the real deal. Ask someone who works there for the correct Wi-Fi name, or check any signs or posters they have.

Use a VPN: VPN stands for Virtual Private Network. It's like putting a secret cloak around your internet connection, making it harder for bad people to see what you're doing online.

Be Cautious: If a Wi-Fi network seems suspicious or too good to be true (like "Super Free Wi-Fi" in an unexpected place), it's better to play it safe and not connect.

Remember, staying safe online is super important. Just like you look both ways before crossing the street, always think twice before connecting to Wi-Fi networks. By being smart and cautious, you can keep your online adventures fun and safe!

Stay safe, and happy surfing!

With Your School Cyber Safety Team

RISHI AGNIHOTRI

Be careful of the evil twin attack. Don't get tricked by hackers pretending to offer free Wi-Fi. They might take control of your phone when you connect to their free Wi-Fi network.

If your phone connects to Wi-Fi by itself, it could mean someone naughty is trying to trick it. They make a pretend Wi-Fi that looks real, but it's actually bad. When your phone connects to this fake Wi-Fi, it lets the bad person see what you're doing online, like reading your messages or looking at your pictures. It's like if someone pretended to be your mail carrier and read your letters before giving them to you!

A Psalm of Life

Tell me not, in mournful numbers,
Life is but an empty dream!
For the soul is dead that slumbers,
And things are not what they seem.

Life is real! Life is earnest!
And the grave is not its goal;
Dust thou art, to dust returnest,
Was not spoken of the soul.

Not enjoyment, and not sorrow,
Is our destined end or way;
But to act, that each to-morrow
Find us farther than to-day.

Art is long, and Time is fleeting,
And our hearts, though stout and brave,
Still, like muffled drums, are beating
Funeral marches to the grave.

In the world's broad field of battle,
In the bivouac of Life,

Be not like dumb, driven cattle!
Be a hero in the strife!

Trust no Future, howe'er pleasant!
Let the dead Past bury its dead!
Act, — act in the living Present!
Heart within, and God o'erhead!

Lives of great men all remind us
We can make our lives sublime,
And, departing, leave behind us
Footprints on the sands of time;

Footprints, that perhaps another,
Sailing o'er life's solemn main,
A forlorn and shipwrecked brother,
Seeing, shall take heart again.

Let us, then, be up and doing,
With a heart for any fate;
Still achieving, still pursuing,
Learn to labor and to wait.

Henry Wadsworth Longfellow (1807-1882) was an American poet and educator. This poem is a dramatic monologue. The poem gives the reader an instant urge to live one's best life. It rejects the idea that life can be broken down into meaningless, emotionless metrics. It advocates that life is neither made to suffer through, nor is it made to solely enjoy. While both these emotions are a part of the journey, the purpose of life is 'to act', improve oneself, and make each day better than the previous one. It is to carry out all duties and responsibilities for the progress and good of all. We should realize life is shorter and quicker and is as valuable an experience. Living as if life is empty creates a life without soul. On the other hand, living life to the fullest nourishes the soul. Therefore, seizing the day is a more spiritual and soulful act.

EMPOWERING SELF THROUGH RESPONSIBLE USE OF SOCIAL MEDIA

Our educator, Mr. Krishna Kumar Kumawat, was selected to participate in the prestigious Mathematics Teacher Orientation Camp (MTOC 2024), held by the Homi Bhabha Centre for Science Education, TIFR Mumbai, and IIT Gandhinagar from March 11 to 15, 2024. The primary focus of this esteemed event was to enhance problem-solving skills in Mathematics, particularly targeting the IOQM and RMO levels. Additionally, Mr. Kumawat was given the thrilling opportunity to lead a session on Creative Mathematics Teaching and Learning. Let's extend our heartfelt congratulations to Mr. Kumawat on this well-deserved recognition!
